4. False Activations

4.1 A key issue in providing the Services is to ensure that False Activations are kept to a minimum, therefore the following procedures will be applied to minimise False Activations.

4.2 In the event that any single Input of the System at the Premises exceeds the Activation Rate then the Company may (at its sole discretion) temporarily isolate that Input and ignore all Activations from it ("Temporary Isolation") until such time as there are no False Activations within a rolling 30 minute period at which point the Company shall re-commence the provision of the Services to the Input.

4.3 In the event that a single Input at the Premises has more than 15 False Activations in any 7 day period, then the Company may (at its sole discretion) isolate the offending Input at the Premises which is causing the excessive False Activations and ignore all Activations from such Input ('Monitoring Suspension') until the Company is satisfied that the issue with the Input has been resolved.

4.4 In the event that the System or Premises generates such number of False Activations as the Company deems unreasonable then the Company may (at its sole discretion) isolate all Inputs at the System or Premises and ignore all Activations from the said System or Premises ('Monitoring Suspension') until the Company is satisfied that the issue with the System or Premises has been resolved.

4.5 Where there is a Temporary Isolation the Company may as soon as reasonably possible use reasonable endeavours:

4.5.1 to notify a Keyholder (who shall be deemed by the Company to have ostensible authority on behalf of the Client or where appropriate the End-User) by SMS or telephone;

4.5.2 to notify in writing the Client and / or End-User as the Company considers appropriate; and

4.5.3 to notify in writing any other third party who the Company deems appropriate.

4.6 In the event of a Monitoring Suspension the Company may as soon as reasonably possible use reasonable endeavours:

4.6.1 to notify in writing the Client and / or End-User, as the Company considers appropriate; and

4.6.2 to notify in writing any other third party who the Company deems appropriate, of the Monitoring Suspension and to require the Client to rectify the cause of the excessive False Activations.

4.7 In the event that the Activation Rate is exceeded, the Company may charge the Client for all False Activations in excess of the Activation Rate at the rate of £0.25 per False Activation until such time as the Company is satisfied that the problem causing the False Activations has been rectified.

4.8 During any period of Temporary Isolation or Monitoring Suspension, all Activations from the Input or System that is isolated, will be ignored and will not be monitored and the Company will not be liable for the business efficacy of the Services or for any damage or loss to those Premises and/or any property thereon during this period of isolation to the extent that it arises as a result of the Company not monitoring the Input(s) or System because of the high number of False Activations.

4.9 Where after 21 days of Monitoring Suspension the problem of excessive False Activations has not been resolved to the Company's satisfaction and the System continues to generate a high number of False Activations then the Company shall be entitled to terminate the Agreement and the provision of the Services to the Premises by notice in accordance with clause 7 of these Terms.

5. Client Obligations

5.1 The Client shall ensure that each System, if applicable, is designed, installed, maintained and operated in accordance with all applicable laws regulations, codes of practice and industry standards and manufacturer's recommendations, if any, from time to time and that it is compatible with the Company's Control Room Equipment and configured to meet the Company's requirements.

5.4 The Client shall obtain a unique reference identification number from the police ("URN") for the System where required by any Authority and promptly notify the Company of such URN. Where approval or permission has to be obtained by the Company from any Authority, particularly in the application for URN (Unique Reference Number for the System), the provision of the Services is dependent upon the Client being and remaining approved by the relevant authority and complying with the conditions and requirements of that Authority.

5.5 The Company shall not be obliged to notify any relevant Authority of any Activations from a System where the Client has not supplied the URN for the System to the Company or has not notified the Company that the URN has subsequently been withdrawn or the System has not been fitted to BS8418 and therefore no URN is available.

6.7 The Communications Links and the computer applications or programs forming part of the Control Room Equipment and, in some cases, the Services connecting the System to the Control Room, are provided by third parties which are not under the Company's control. 6.9 The Client hereby acknowledges, agrees and recognises that the Company will be using the Control Room or its personnel for its own general purposes and for providing services to other persons and the Client expressly agrees that the Company shall have no duty of confidentiality to the Client and/or the End-User in respect of the Agreement or the transmissions of Activations received via the Communication Links and the keyholding/response service is a shared service with other customers of the Company and shall notify the End-User's accordingly.

6.12.1 any image triggering an Activation should fill a minimum of 30% of picture height; and

Terms and Conditions – CCTV / Intruder Monitoring

6.12.2 CCTV camera fields of view should be adequately lit and kept clear so that an operator at the Control Room can reasonably verify the presence or absence of any intruder at the Premises and that if either of the conditions in clause 6.12.1 or 6.12.2 are not met then, except in respect of death or personal injury caused by the Company's negligence, the Company shall have no liability for any failure by it to carry out the Services properly and/or to detect intruders as a direct or indirect result.

6.13 For so long (i) as the Activation Rate is exceeded or (ii) during any suspension of the Services or (iii) whilst any payment due here under is outstanding, and following notice to the Client, the Company will not be liable for the business efficacy of the Agreement and any damage or loss to those Premises and/or any property thereon.

6.14.4 the Charges are based solely on the value of the Services and are unrelated to the value of any property at the Premises; and

6.14.5 the Client shall test the System (including a walk test) each month during the term of the Agreement to ensure that it meets the Company's requirements relating to the System referred to in the Agreement and the efficacy of the System

and shall notify the Company in writing once a month of the results of these tests. The Company shall not be liable to the Client under this Agreement or in respect of the Services in the event that the Client fails to test the System or to maintain the System in accordance with the terms of the Agreement.

6.14.6 Commercial Client only - the Charges payable under the Agreement and the agreement by the Company to provide the Services are based on the information provided by the Client by way of the warranty and representation in the Additional Information section in the Agreement and the Company shall not, except in the case of death or personal injury caused by its negligence or where it is in deliberate or wilful default of its obligations, be liable to the Client in the event that this information and the warranty is incomplete or inaccurate.

6.18 The Client shall notify the Company as soon as possible after becoming aware of any event, matter or circumstance which it considers would entitle it to bring a claim under the Agreement.

6.19 Notwithstanding this clause 6, nothing contained in these Terms is intended to limit any right the Client may have as a Consumer under applicable law or other statutory rights or to exclude liability of the Company for death or personal injury caused by the Company's negligence or for fraud or fraudulent misrepresentation.

6.20 All other warranties or conditions which would otherwise be implied at or by common law, statute, trade usage or otherwise shall not form any part of the Agreement provided that this sub-clause shall not have nor be deemed to have the effect of excluding any specific obligation or obligations exclusion of which is made void or is prohibited by law.

6.21 The Client warrants that it has read and understood the limitations of the Company's liability under the Agreement and agrees and acknowledges that such limitations of liability are fair and reasonable having regard to the facts that the potential losses which could or might be caused as a result of any breach of the terms of the Agreement are greatly in excess of and wholly disproportionate to the amount being charged by the Company for the provision of the Services hereunder.

6.22 Where the Client has an End-User, the Client agrees to:

6.22.1 indemnify the Company its servants or agents against all loss damage costs claims or expenses arising out of any action brought by an End-User (to whose or in respect of whose Premises or the Services are to be provided or agreed to be provided) up to the level of limitation of liability of the Company and its employees and agents as set out in the Agreement;

Terms and Conditions – CCTV / Intruder Monitoring

6.22.2 disclose to all End-Users all the terms of the Agreement and in particular the fact that the provisions of all Services does not obviate the need for the End-User to effect and maintain insurance in respect of the Premises and its contents and any business carried out thereon against the potential losses incurred by the End-User which could or might be caused as a result of any breach of the terms of this Agreement;

6.22.3 the Client agrees that the Company shall be entitled to contact the End-User directly for the purposes of performing its obligations and rights under the Agreement;

6.22.4 instruct the End-User in the use of the System to ensure that False Activations transmitted to the Company are kept to a minimum.

7.3.1 the Client is more than 14 days overdue with any payment hereunder;

7.3.3 the Activation Rate is persistently exceeded;

7.3.4 the Control Room is so substantially damaged or destroyed that it is impractical to continue to provide the Services; or

7.3.5 the Company is unable either to secure or retain telecommunications facilities necessary for the transmission of alarm signals between the Control Room and any Police, Fire or other agency or emergency service.

7.6 Where the Company is entitled to terminate the Agreement under clause 7.2 or clause 7.3, without prejudice to any other remedy, the Company may elect to suspend the performance of the Services to the Client or in respect of all or any End-User, if any, for a period of not more than 4 weeks and the Company may terminate this Agreement under clause 7.2 or 7.3 at any time during or at the end of such suspension if the breach by the Client is continuing or any of the circumstances set out in clause 7.2 or 7.3 have occurred or occur during that period of suspension.

7.7 On termination of the Agreement the obligations of the Company to provide the Services shall cease without prejudice to any accrued rights or liabilities of either party and, where the Client has an End-User, it shall immediately inform the End-User that the Services under the Agreement have ceased to operate forthwith.

7.8 On termination of the Agreement all monies payable by the Client shall be immediately due and payable.
